

EDUCATION

Sri Eshwar College of Engineering	B.E (AIML)	CGPA 8.4 (Upto 8th Semester)	2022 - 2026
Alagar Public School	HSC	71.2%	2020 - 2022
Alagar Public School	SSLC	73.4%	2019 - 2020

INTERNSHIPS

Gen AI 2024

Accomplished GenAI internship, gaining hands-on experience with technologies like prompt engineering and LangChain, enhancing my skills in LLM and Generative Adversarial Network.

Tech stack: Prompt engineering, LangChain, GAN, LLM

INFOSYS 2024

Accomplished an internship at Infosys, where I worked on the project Risk Analysis for Home Credit Default. Leveraged ML, DL, AI and NLP to develop predictive models that analyze credit risk factors. Implemented GenAI techniques to enhance predictive accuracy.

Tech stack: AI, ML, DL, NLP, GenAI

MOKSA.AI 2023

Accomplished internship provided by this company. Classified the dataset and trained an annotation model for that company using python and flutter and developed a GUI to do Surveillance using OpenCV, NLP, Deep Learning Company Location - USA.

Tech stack: Python, Flutter, NLP, OpenCV, Deep Learning

PROJECTS

CHAMELEON 2024

Chameleon is a language learning app built using android studio. Chameleon possess Users with different languages. Users can learn any language from English to their target language. The app Provides handwriting, pronunciation, Lessons, Quiz, Video chat - [Opencv], Messaging Option using java, TensorFlow. Frontend is done using Figma and XML.

Tech stack: Android Studio, Figma, XML, Java, Google Translation, TensorFlow, OpenCV

SURVEILLANCE USING VISION TRANSFORMERS 2024

Enhanced retail surveillance system utilizes VideoMAE for detecting violence, theft, and abnormal behaviours, providing real-time alerts to shop owners and authorities via a web interface using Python. The uploaded video is processed in Google Colab with GPU support, and results are displayed on a Streamlit-based website.

Tech stack: VideoMAE, Streamlit, Google Colab, Python, OpenCV, Pyngrok

SAAS 2023

Smart attendance and services app developed using android studio. Used to maintain attendance of the students. This is done by our face-recognition model using opencv and it identifies them and mark the attendance in the excel sheet using firebase dataset and stored as files in google drive. App contains excel sheet data, sign in, attendance percentage, sign out and translation from English to other languages.

Tech stack: Android Studio, Html, CSS, JavaScript, Firebase, OpenCv

CERTIFICATIONS

Certified in Introduction to machine learning for everyone	<u>Coursera</u>	2023
Certified in Mastering Data Structures & Algorithms using C and C++	<u>Udemy</u>	2023
Certified in SQL- Intermediate	<u>Hacker Rank</u>	2023
Certified in Web Application Technologies and Django	<u>Coursera</u>	2022
Certified in Introduction in deep learning course	<u>Great Learning</u>	2022

ACHIEVEMENTS

Leetcode: Rating - 1756 | Top 9.53% in the World | [profile](#)

Codechef: Rating - 1010 | [profile](#)

Hacker Rank: 5 -star badge in C | 3 Certification | [profile](#)

Nexus24 Hackathon: Secured 5th place with cash prize of 3000 at CIT 2024

Asthra 2K24: Secured 2nd place in Project Expo with cash prize at KIT 2024

Asthra 2K24: Secured 1st place in Ideathon with cash prize at KIT 2024

JITHACK'24: Participated in 24 hours hackathon held at JIT-Bangalore 2024

SKILLS

Languages - C | Python | HTML | CSS | JavaScript | C++ | Java

Core - Data Structures and Algorithms | OOPS | Full Stack

Tools/Platform - GitHub, VS Code, PyCharm, IntelliJ, Android Studio, Google Colab, Canva

Database - MySQL, MongoDB
